

## NOTICES

Copies of *Faces of the River, New Zealand's Living Water*, by David Young and Bruce Foster, TVNZ Publishing 1986, are still available at NZ\$38.50 from Maurice Duncan, DSIR Hydrology Centre, P. O. Box 22-037, Christchurch (phone Christchurch (03) 646-621).

The "New Zealand Science Monthly" provides an informative, readable look at New Zealand science and technology. It is read by everyone from secondary school students to academics, and aims to provide information of substance in a non-technical manner. The magazine covers a broad range of subjects in a variety of ways—including feature stories, opinion pieces, conference announcements, new technology developments and book reviews.

We would welcome submissions from researchers, engineers and interested parties about their work, their ideas and their concerns. These could range from copies of abstracts to conference proceedings, from information for feature articles to letters to the editor. This is a chance to reach the general public and assure them that science is alive and kicking in New Zealand.

Copies of writers' guidelines are available on request as are free evaluation copies of the magazine itself.
